- Superior features
- Heavy duty design
- Excellent quality
- World-class performance
- Customized options
- Support and service

Description

The Z-Med is a “clean room” table top heat sealer designed for low to medium production requirements, where space and size are considerations. This unit is a single-sided, shuttle type sealer which utilizes low cost, quick-change seal tools, and is ideal for standard blister applications as well as Tyvek, foils, thin plastic and laminated film lid stocks.
